HANDY®

TRUSTED SINCE 1894

OUR STORY

1894

John T. Handy establishes company.

1903

Handy becomes the first company to process soft shell crabs.

ORIGINAL HANDY PLANT ESTABLISHED 1903

1980s

Handy becomes the first and only soft shell crab processor to use electronic sizing for soft shell crabs, a procedure that replaces visual sizing.

1990s

Handy introduces handmade all-natural crab cakes to the marketplace and institutes a new process in which crab meat is re-picked under black lights to remove shell fragments while maintaining product integrity.

2000s

Handy introduces its technology to Asia, where fresh seafood is available year round, in order to offer a "Crab for All Seasons" to both meet the growing demand for healthy seafood in the U.S. and to conserve resources.

Handy also introduces the world's first and only certified gluten-free crab cakes.

2010s

Handy employees, watermen, council members and local businesses gather in Crisfield for a seafood feast to celebrate a century of soft shell crab processing!

Handy Seafood Celebrates 125 Years in 2019.

2020s

Handy and OLD BAY® team up to launch OLD BAY® Crab Cakes and OLD BAY® Breaded Shrimp in retail.

125th Anniversary
